

Sine Die - Report Format

Welcome to the Oklahoma Municipal League *Sine Die Report*. This report is to serve as a summary document of the major issues tracked by the Oklahoma Municipal League during the second regular session of the 56th Oklahoma Legislature that impact cities and towns.

Sine Die is organized to identify and summarize those laws that impact Oklahoma's cities and towns. This includes a section of bills that may impact municipal departments, as well as a report highlighting the 2017 Interim Studies requested by the legislature, that may be of interest to municipalities.

Each bill summary includes the bill number and its principal authors, as well as a descriptive statement, which has been provided by the OML Legislative staff. It also provides a link to the bill for you to access.

Please note that this Sine Die Report is a summary of bills containing legal principles applicable to municipal operations. Like all such publications, it is *not a substitute for legal advice*. You should consult your city or town attorney prior to taking any action based on this document.
