

GRASS ROOTS INVOLVEMENT PROGRAM (GRIP)

In an effort to have a favorable outcome on legislation involving cities and towns, this program has been created for **key municipal leadership** actively involved in the legislative process.

The GRIP program will allow us to make quick contact with you, who in turn, can make quick contact with your legislator(s) on issues of importance to you during the legislative session. Whenever a contact needs to be made, you will be notified. These issues often turn on a few hours of notice. When contacted you will receive all information that you need on the issue via email. In critical situations we will try to call you.
