SMALL BUSINESS SOLUTIONS

**Small enough to value
your business – big
enough to handle it**

You may consider yourself a small business, but you still have many of the same communication needs as the giants. You want to deal with a service provider who is more than just a call center in some remote location. You need Bluepeak because— hang on— we actually have a sales team. Instead of a different customer service person every time you call, you reach a dedicated rep who’s banking on your success. It’s a big communications world out there, and we can make it seem a bit smaller.

Our high-speed fiber can integrate your entire system— internet, phone, and TV— and we can tailor it to your needs.

**Internet for your home
starting at \$50 a month!**

**Learn more about how Bluepeak
can help your small business at
mybluepeak.com/business/home.**

**Our internet service
surpasses anything you
will ever need.**

Fiber internet with WiFi is included for small to medium sized businesses with speeds from 2 Gbps to 10 Gbps.

**Keep your customers
occupied and your
employees happy.**

Bluepeak offers three streaming TV options, so choose the one that best suits your audience.

**Stay in touch with your
customers, work remotely,
collaborate with your team.**

Our phone service means you’re serious about taking your customers’ calls. That kind of power calls for sophistication and speed.
