

District Meeting/Forum 9-1-1 Policy Statement

The future viability of Nine-One-One is a major public safety issue for Oklahoma cities and towns. This vital service is being squeezed by ever higher costs due to technological advances and stagnant or falling revenue due to the transition from land-line to cell phones and pre-paid wireless. The following is the policy paper presented by OML staff to the special legislative task force established during the 2009 legislative session at the request of ACOG.
